

P-snurran

Car-park

LOCATION: Rörstrandsg, Stockholm, Sweden

CLIENT: Stockholm Parkering

TYPE: Architecture

STATUS: Built

DATE: 2003

REF: Bo Löfgren,
Stockholms Parkering

This high-tech multi-story car-park is situated at the location of an old porcelain factory in Stockholm. Partly underground this automatic car-park holds 50 cars. The building is cylinder shaped, plastered with grass roof. The advanced machinery is revealed through the glass panels of the facade.

The project is the first automatic garage in Sweden and built using Italian technology.
